

EVALUATION GRID

This grid will help you through the evaluation process of your project, particularly in determining its relevance, feasibility and innovation. You will be asked to assign a grade to the proposals that will emerge from the work in group(s): from 1 (very low) to 10 (very high), you can assess different aspects of your project ideas. The total will determine which idea is more efficient according to the proposed criteria. In the sample below, you can see for instance, how music coop was selected as the best proposal among several ideas!

IDEAS	Relevance Note / 10	Feasibility Note / 10	Innovation Note / 10	TOTAL Note / 30
